January 23, 2017

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2015-16 educational progress for Wilson Middle School. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, accountability, and teacher quality. If you have any questions about the AER, please contact Wilson Principal, Carol Makuch, for assistance.

The AER is available for you to review electronically by visiting the following web site <http://www.wyandotte.org/wilson/> or you may review a copy in the main office at your child's school.

For the 2016-17 year, no new Priority or Focus schools were named; some Priority or Focus schools did exit their status because they met the exit criteria. New Reward schools were identified using school rankings and Beating the Odds information. A Focus school is one that has a large achievement gap between the highest and lowest achieving 30% of schools. A Priority school is one whose achievement and growth is in the lowest 5% of all schools in the state. A Reward school is one that has achieved one or more of the following distinctions: top 5% of schools on the Top-to-Bottom School Rankings, top 5% of schools making the greatest gains in achievement (improvement metric), or “Beating the Odds” by outperforming the school's predicted ranking and/or similar schools. Some schools are not identified with any of these labels. In these cases no label is given. Our school has not been given one of these labels.

At Wilson Middle School, we engage in Professional Learning Communities (PLCs) to continually assess the growth and progress of our students in all of their academic areas (math, language arts, science, and social studies) to seek ways to improve our teaching in order to increase student growth. Our students take the NWEA assessment three times a year to track individual student growth and expected achievement progress. Using these reports, teachers are able to establish individualized goals and instructional plans for our students. The results of these assessments are also shared with parents. We are proud of the consistent growth of all students throughout the year as supported by this assessment. The 2016 M-STEP results, in comparison with the State, show we are below the averages in each area tested. In our continued efforts, we are dedicated to targeting the needs of students based on these assessments. We have implemented an Academic Success intervention class which uses *Think Through Math* and *Reading Plus* programs to address some of these specific needs. We also have four Title I instructional aides that work with students individually or in small

groups, as well as facilitate after-school tutoring. Additionally, teachers at Wilson Middle School are also using differentiated educational practices in their classroom. The entire staff is committed to continuing the focused and dedicated work of the PLC process by developing a guaranteed and viable curriculum in all core academic areas, creating quality common formative assessments to measure mastery in the essential learnings, engaging in focused professional development, using research-based best practices in instruction, and reviewing data consistently. We are completing our School Improvement Plan (SIP) cycle and revisiting our needs to prioritize the instructional shifts of the Common Core State Standards (CCSS) and to obtain our recently-developed school vision and values by implementing, with fidelity, the Collective Commitments that we, as a staff, developed together. We will continue to maintain a growth mindset and learn from each other through regularly scheduled PLC meetings, PD, instructional rounds, and on-going observations.

State law requires that we also report additional information.

1. School Assignment: Grades K-5 students residing in the City of Wyandotte are assigned elementary buildings in one of two ways: Area Residency - geographic boundaries have been established around each elementary building taking into consideration city boundaries, major thoroughfares, railroads, and natural boundaries (creeks, rivers). Limited Open Enrollment - parents may apply for their children to attend any District elementary school. Approval for Limited Open Enrollment (LOE). Students in grades 6-8 living in Wyandotte enroll at Wilson Middle School; students in grades 9-12 living in Wyandotte enroll at Roosevelt High School. Nonresident Open Enrollment (CHOICE) attendance for all students K-12 depends on space availability in the selected school and previous behavior reports.

2. School Improvement Status: Wilson Middle School staff meets regularly in Professional Learning Communities to do the work of school improvement as a process of continuous improvement. Wilson Middle School has met all the standards for eligibility of a school-wide Title I school. Our academic goals are to improvement achievement in reading, writing, and mathematics. Our organizational goal is to increase positive school climate. We launched a new School Improvement Plan this year that will evaluate and revise through 2020.

3. A BRIEF DESCRIPTION OF EACH SPECIALIZED SCHOOL NA for Wilson

4. Curriculum: The District has implemented the Common Core State Standards (CCSS) as well as the NGSS for science as its curriculum, and each school is in the process of prioritizing the standards to develop a guaranteed and viable curriculum. Our eventual goal is to develop a district guaranteed and viable curriculum in our PLC work. At Wilson, we have established our Mission, Vision, Values, and Goals, and now we are starting on unwrapping the Standards which will prioritize our most critical standards in order to help us establish a guaranteed and viable curriculum. The CCSS can be found at www.corestandards.org

5. Student Achievement: Student achievement is measured in numerous ways by Wilson Middle School Staff. All of our 6-8th grade students participate in Michigan's MSTEP testing. In addition, a variety of local assessments are used to assess student growth, including the NWEA assessment and various classroom assessments. Generally, our aggregate data shows a need for improvement in overall academic achievement in all subject areas. Our school saw a decline in State scores when the MEAP assessment transitioned to M-

STEP. As we initiate deep and deliberate implementation of PLCs, we believe we will begin to see academic gains. We believe through continued development and sustained practice, our PLCs will be a powerful tool to assure student growth. We also have interventions in place for students who are not meeting expectations. We continue to strive for ways to make our school as effective as possible so ALL students can experience success.

6. Parent-Teacher Conference Data: The 2014-2015 school year data shows 76% of Wilson parents attending Parent-Teacher Conferences in the fall and/or spring. The 2015-2016 school year data shows 78% of Wilson parents attending Parent-Teacher Conferences in the fall and/or spring.

The staff, students, and parents of Wilson Middle School believe in working together to ensure high levels of academic growth and success for all of our students. The vision and mission of our district and school are strong. I congratulate all the students and stakeholders of Wilson Middle School in the district of Wyandotte for making student growth a priority and for committing to academic excellence for our children.

Sincerely,

Carol Makuch

Principal, Wilson Middle School, 1275 15th Street, Wyandotte, MI 48192
